

## RECITAL PHOTOS Q&A

***Are class/group photos for Kinderdance, BAT, and level 1 and 2 classes mandatory?***

Yes, each child needs to be in the class photo, but you are not required to pay anything unless you want to reserve a time slot for individual photos of your dancer.

***When are photos being taken?***

**FOR TORRANCE CLASSES: Photo day is June 13th** during dress rehearsal for the big show. Classes will be assigned group photo times when the dress rehearsal schedule is released.

**FOR ROLLING HILLS: “Photo Week” is May 19th-24th**, and photos will be taken during or close to the regular class times for the week. You will just bring your dancer to class in their costume, and ready to take pictures! After the group photo, those who have booked individual slots will stay to take their photos, and everyone else will go back to class.

***If my child is in more than one recital class, do I pay \$40 per class, or \$40 total?***

You only pay one \$40 payment total to reserve a time slot for individual shots. The \$40 includes one group photo digital image.

***What if I only want the group photo, and no individual photos of my child? Do I still need to pay the \$40?***

No, you do not pay the \$40. The group photo will be available for purchase after the shoot at the single image price of \$22.

***What if I have more than one child in the recital?***

Each child will take a group photo with their classes. If you would like individual or sibling photos of each child, then you would need to pay \$40 per child to reserve each dancer a time slot.

***Can siblings take some photos together?***

Yes! If they are in the same class and have both paid \$40. If they are in different classes, you would just need to bring them together to one of the assigned class times. I can take pictures of them together after the group photo, during individual time slots.

***Does the \$40 include all group photos if my child is in multiple recital classes?***

No, one group/class photo is included.

***What if my child is in a level 3 or higher recital class? Can they still have individual pictures taken even though their class is not taking a group photo?***

Yes, you would just pay \$40 in DSP to reserve a time slot, and since there is no group photo, one of the images in your gallery would be included in the initial payment.

***How do I see my images to choose what I want to buy?***

After the photo day, all images for each dancer will be put into their own online gallery. (If they are in multiple classes or have sibling poses together, all of the images will be combined into

one gallery.) From there, you will select which ones you love and want to buy, and complete your purchase.

***What are “Buddy” photos?***

If your dancer has a best friend or two in class, as long as they have all booked their own spot, they can also do a couple fun poses together in their costumes!

(For Torrance, depending on time, there will be a section of time during photo day for shots with friends who are not in your class.)
